

Updates ~ Progress of Pen-Col 2018

"The Pen-Col cattle have made buyers a lot of money over the years! Dennis Wolff is running for Congress which is why we are selling the very top end of the herd to reduce the work load! This looks to be the finest group of fresh young cows and high genomic heifers we have ever sold at Pen-Col so dig in & expect great buys all day! Also, be sure to support Dennis Wolff for Congress any way you can! He will be a major voice for Farmers in DC! Thanks for your support of this sale and we wish you the very best with your purchases!" Dave Rama

Special Note: With the new GTPI formula the average roll back for GTPI was about 93 GTPI points. The GTPI's in the catalog are the new release so the GTPI's you see are really high on the new formula!

1. Looks fantastic! Huge component cow & can make high GTPI dtrs!
2. Big & very correct heifer! Tremendous embryo producer:
Conventional flushes: 11-17-16 made 13 transfers resulting in 8 pregnancies;
8-17-17 made 19 good embryos (12 #1 & 2 embryos).
IVF: 10-27-17: 25 Oocytes, 8 transfers, 2 frozen
10-13-17: 21 Oocytes, 6 transfers, 8 frozen
9-29-17: 28 Oocytes, 6 transfers
2-10-17: 15 Oocytes, 5 transfers, 4 frozen
7-17-17: 28 Oocytes, 10 transfers. 2 frozen
Plus 7 more earlier IVF cycles resulting in 36 transfers & 10 frozen.
11. 1-26-17 Conventional Flush made 5 transfers & had 6 UFO
IVF: 3-10-17: 17 embryos with 8 transfers resulting in 3 pregnancies
5-19-17: 2 embryos, 2 transfers resulting in 2 pregnancies
6-22-17: 4 transfers resulting in 4 pregnancies
13. Huge update, her GTPI is +2690 not 2590. That is misprint in catalog! Wow!
15, 16, 17. They are out of the sale
20. Dam has 2-0 365d 30,803 3.2 982 3.5 1074 & will score fresh again in June! Lovely heifer!
30. Please correct her GTPI to read +2670! Her GTPI in catalog is incorrect. +2670GTPI!
43. Out of the sale.
50. Looks sensational! Conventional flushes: 11-17-16: 4 transfers, 2 UFO & 2 Pregnancies.
4-27-17: 6 embryos, all #1 Frozen for export!
Dam has record of 3-04 365d 33,364 3.8 1254 3.3 1111. Major league Genomic heifer!
Her dtrs., lot 51, 52 & 53 are some of the highest GTPI heifers in the world!
51. Bigtime heifer! Fancy, huge numbers & soon ready to IVF!
58. IVF: 7-17-17: 28 Oocytes – 8 transfers, 5 frozen.
6-23-17: 26 Oocytes – 3 transfers, 3 frozen.
6-09-17: 29 Oocytes – 14 transfers
5-26-17: 18 Oocytes – 5 transfers
5-12-17: 27 Oocytes – 7 transfers, 3 frozen.
4-21-17: 13 Oocytes – 2 transfers
3-31-17: 24 Oocytes – 10 transfers, 5 frozen
- 64-68. The dams correct registration number is 74258381 for Montross Misty.
65. Conventional flush: 11-17-17 – 4 implants resulting in 2 pregnancies.
69. A really special heifer! Mark her fancy with great udder promise & super F&L!
Made 18 transferable & all frozen & 4 UFO on one conventional flush.
IVF: 5-12-17: 15 Oocytes – 1 transfer & 4 frozen
4-21-17: 22 Oocytes – 5 transfers
3-31-17: 30 Oocytes – 8 transfers & 4 frozen
