

The Girls of Gorwood-D Complete Dispersal ~ Updates

We thank you all for attending this tremendous herd dispersal. As many are aware, Ron must have immediate surgery and has been extremely short on help. We would like to move all cattle off the premises as quickly as possible to facilitate Ron's needs. Our staff will assist loading cattle immediately after the sale. A veterinarian will be here later in the day to issue health charts for out of state purchases! Oxytocin is used in the herd as a management tool on some of the cows in the sale.

We will be selling all the milking cows 1st followed by heifers. Some of the cows that will be selling early are lots 1, 2, 4, 32, 37, 45, 54, 60, 135, 142, 145, 170, 209. Then we will go around the barn & sell as they come! Hang on the great buys will be here all day long!

- 1. 4th gen. EX, sells open & ready to Flush!***
- 5. Bred 4-10 to Mt-Glen Adolph Lynch 525HO114.***
